**Unique opportunity**

# Today's objectives

We would like to grab this unique opportunity to make some valuable time so that each partner:

1

Gets to know better our company, and what we do at JANUS, for C3Ps and on a broader aspect

2

Gets to know the other partners and current activities through information exchanges

3

Reflects on how to further implement decarbonization through opinion exchanges - find similarities in local issues among countries, provide examples on good practices, etc.

# Please have in mind that...

This is also unique as we are your partner as  
a private environmental consultant

You can address more direct opinions / questions as you feel like!
